# Mega laser

The mega laser printing technique is a supersized version of the standard laser engraving you are already familiar with. The laser burns away the top layer of a product and creates a subtle, three-dimensional effect. With some of our aluminium and stainless steel bottles, the top layer is coloured and the engraving exposes the metal colour underneath. This contrast makes the logo stand out even more. It's not only possible to engrave stainless steel items, but it's also possible with Tritan, HDPE and bamboo materials for example. We can even engrave on difficult shapes, like conic items and uneven surfaces!

# Parker ballpoints

George Parker believed it was always possible to make a better pen. It's what drove him to patent his first leak-free fountain pen in 1888 and it's the philosophy that motivates the constant refinement of Parker pens today. With a truly global footprint and with 130 years of expertise and innovation, Parker's commitment to quality, craftsmanship, and sourcing the best materials has ensured that each pen has always delivered the best writing experience for when it matters most and continues for generations to come.

# Stilolinea ballpoints

In the early 1970s, Stilolinea was one of the first companies to market pens as a promotional tool. Stilolinea is now one of the most famous brands of pen, known for its superior quality. On average, a Stilolinea ballpoint lasts more than four times as long as a standard promotional ballpoint pen. And the longer the life of a pen, the longer your logo will remain visible to your target group.
